[Archief Seuphor, AMVC Letterenhuis, Antwerpen]

At present, true reality ⟨- ,⟩ – equilibrium /
of the opposite forces – is veiled by /
oppressing powers. The world is in des- /
equilibre through the unequivalence /
of oppositions which appear as Demo- /
cracy and Nazism. //

Nazisme seeks particular unity through /
oppression : Democracy wants univer- /
sel unity through individual freedom. //

Nazisme is going against the logical /
progress that we see disclosed in Plastic /
Art. Democracy is homogène with /
this progress which is Human progress. ///
